EDUCATION

BP Poddar Institute of Management and Technology,

GPA 8.26

Kolkata

Sept. 2021 – Jun 2025

D.A.V H/S CUM GOVT. INTER COLLEGE

Percentage-80.6

Siwan

2017-2019

MAHABIRI SARASWATI BIDYA MANDIR

CGPA-9.6

Siwan

2012-2017

SKILLS

Programming languages: Java, Python, Html, Css, Javascript

Libraries/Frameworks: React.js, Express.js, Bootstrap, Tailwind CSS, numpy, pandas, Tensorflow, keras, sickit-learn

Technologies: Full stack development, Machine learning, Deep learning

Databases: MongoDB, MySQL

Computer fundamentals: OOPs, Operating system, DBMS

CERTIFICATIONS

AI/ML Engineer (Beginner): by Infosys Springboard

(March 2025 - Present)

PROJECTS

Restaurant Order System: [Link](#)

Features

- **User Features:** Sign up and login with email and password or through third-party authentication; Browse and order from a variety of dishes; payment processing; Real-time order tracking.
- **Admin Features:** Portal to view all orders; Update order statuses; Manage dishes (add, modify, delete); Sign up and login with email and password or through third-party authentication.
- **Tech stack used:** React.js, Express.js, MongoDB, Tailwind CSS, etc.

Fraud detection

Features

- Developed a deep learning model to predict that a transaction is fraud or not using a dataset with attributes such as Transaction Amount, Frequency of transaction, Device Used etc
- Accuracy on training data: 95.02
- Accuracy on test data: 95.10
- **Tech stack used:** Python, TensorFlow, Keras, NumPy, Pandas, Scikit-learn

ACHIEVEMENTS

- Participated in TCS CodeVita Season 12 and achieved a rank of 3078
- Solved approximately 300 DSA problems across platforms such as LeetCode, GFG, etc.
- Participated in Flipkart Grid 5.0 – Software Development Track.
